MCR GROUP, INC.

CATV FTTH-ORH-016P Passive Series with WDM Optical Receiver

Performance characteristics

- Bandwidth 45~1003MHz
- Input power range +2~-10dBm.
- No power supply, no power consumption
- Output level≥65dBuv (PIN=+0dBm)

Product Introduction

Passive FTTH optical receiver with WDM is a household optical receiver with the final goal of fiber access. It is used in FTTH (fiber to the home) network to realize analog or digital signal access to the home.
