

Fiber Clamp Tensor plastico para fibra drop Specification

Model Number: MCR IP-Clamp

Feature:

Used for gripping and tension wire drops This type of fiber tension is required with a weather resistant nylon clamping body, which increases the tension load while the cable does not slide or fall off.

Made of materials with UV protection, sensing long term exterior and interior use, allowing installation on walls, poles with TOWING HOOKS, pole brackets, FTTH brackets.

Model Number: MCR IP-Clamp	
Material	Stainless Steel 304 with PA 66
Surface Treatment	Polishing
Pull Force	≥100kgs
Packing	400 pcs
